URBAN HIGH SCHOOL STUDENTS & ATHLETES

FALL 2020

## GOD OVERRIDES COVID

Though COVID continues, homelessness is increasing. But, serving the needy prevails. As I volunteer with HUD to assess families and singles, we have come along side of The Sharing Center Oasis, pictured below, who provide showers /food in the morning for homeless guests. To the right, are two HUD workers in front of their computers and three of us as volunteers in our red shirts. It has been good to continue the services but outside. As COVID leaves more people jobless, there are increasing rising evictions and homeless families. We need believers to open a room in their home or take families to serve others in need. Who in your neighborhood needs a deed of love expressed to them?

On our last newsletter, student athletes were stressed over being unnoticed as athletes. Academics have been challenging for parents, students, and families. This last grading period for Orange County has left many students athletes drastically behind in their academics, especially in Math.

## Virtual Tutoring

Orlando Athletic Training Academy, OAT Academy, is developing a Virtual Tutoring Program. Individuals that love an academic subject can pick one-hour a day and connect with an athlete in safety. We will better serve the athlete and hopefully increasing their GPA. We are needing the right partnerships and tutors.

## Prayer Needed:

- ◇ For 4-8 tutors to work with athletes before/after January
- ◇ Favor for having contact with athletes during COVID before January
- ◇ Track Season to return in January
- ◇ Work through details to help homeless college students at Valencia Community College for tutoring with the Samaritan Resource Center.

Thank You,
